

This Charming Place (Zajkowski)

There's something charming 'bout this place
The Mrs. tends the garden
Bowing before Queen Anne's lace

Plastic flowers fill her flower vase
She's a standard of perfection
And of elegance and grace

This charming place

Looking out the double door garage
The trellis is displaying
A colorful collage

Just drop in because you're near
It's alright
To crash here

This charming place

Dirty dishes in the sink
What would other people think
Go and fix another drink
Dodging glares with just a blink

There's something charming 'bout this place
The neighbor slams the window
Nearly shattering the pane

How are things with you today
You say "hello"
But never say

This charming place

Chris: Sings and plays

Dr van der Jagt (Allen/Marshall/Zajkowski)

Dr van der Jagt you make me smile a lot
You tell me jokes, you make me laugh
You cut my problems right in half
Dr van der Jagt

Dr van der Jagt you found out what I got
No matter what you're always there
You showed up to intensive care
Dr van der Jagt

Dr van der Jagt the seasons change so fast
Though the sun is blocked and sky is overcast
You make me smile, you make me laugh
You cut my problems right in half
Dr van der Jagt

Dr van der Jagt it's all the time we got
No matter what you're always there
You showed up to intensive care
Dr van der Jagt

Dr van der Jagt please forget me not
The summer song when winter longs
Spring from the flower pot

Dr van der Jagt it's all the time we got
No matter what you're always there
You showed up to intensive care
Dr van der Jagt
